

MEMORANDUM OF UNDERSTANDING BETWEEN PET ALLIANCE OF GREATER ORLANDO AND SAFEHOUSE OF SEMINOLE

Pet Alliance of Greater Orlando ("PAO") and Safehouse of Seminole ("SH") enters into this memorandum of understanding (MOU) concerning the boarding of companion animals of residents currently staying at SH. This agreement is contingent on available space at PAO.

PAO agrees to care for pets (dogs or cats) that SH is unable to house on-site and provide next-day boarding services for pets. SH may transfer animals to PAO due to lack of space at SH, and for specialized care of frightened/aggressive or larger animals. During the pets' stay at PAO, the following care will be provided at no cost to SH.

- Clean cage and fresh water daily or as needed.
- Feed major-brand pet food as provided to other shelter animals. Provide a special diet on request and at the expense of the owner (or food provided by the owner).
- Dog walking when PAO staff is available.

These additional services will be offered that may require funding or reimbursement to PAO:

- If the pet requires emergency medical care, such as casting broken bones, x-rays, treatment of burns or lacerations, etc., the services will be provided and billed by the attending veterinarian to the owner of SH program according to a pre-determined fee schedule.
- Preventative vaccinations if the pet is not up-to-date, including:
 - Dogs and cats 4 months of age and older must be current on a rabies inoculation and, if not current, the owner of PAO is responsible for PAO's actual cost of providing the inoculation.
 - Dogs must be current on their distemper, parvovirus and coronavirus vaccination and kennel cough vaccination and, if not current, the owner of SH program is responsible for PAO's actual cost of providing the vaccinations.
 - Cats 8 weeks of age and older must be current on their FVCRP vaccination and, if not current, the owner of SH program is responsible for PAO's actual cost of providing vaccination.

To insure the safety of PAO staff and animals, the pet(s) owner (circle one) may/may not visit their pets at PAO. If visitation is allowed, it will be coordinated by the SH Director with PAO staff. If visitations are not allowed, the pet(s) owner may call to check on their pets during PAO office hours.

SH will have the pet owner execute the Consent and Release form before the pet is transferred to PAO. The original will be kept on file at PAO with a copy on file at SH. While the pet is in care of PAO under this agreement, the confidentiality terms of the pet owner's location at SH will remain in effect and such confidentiality will also remain with the pet(s) in the care of PAO. PAO is, therefore, not permitted to disclose to anyone that it is caring for a pet under this agreement.

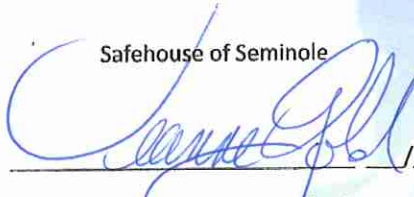

This MOU will continue at the agreement of both parties and may be cancelled by either party in writing at any time.
